

# STUDENT ISSUES RESOLUTION PROCESS

Approved by Management Committee Not yet

Our educational delivery at Peregrine is dependent on our commitment as individuals to clear channels of communication. This process should be used in consultation with the school's *Grievance Policy*.

All issues between students and the school shall be subject to resolution by this Process. As part of their evaluation of options for action, the Principal and Management Committee may however determine that the issues required independent investigation or arbitration. The process should happen in a timely manner, especially in regard to specific class/education issues, that directly affect students' wellbeing.

Where a grievance involves an issue concerned with law-breaking behaviour or major breach of school policy, process will be taken from other school policy to guide decision making.
